INSPIRING THE NEXT GENERATION OF SCIENTISTS

Dear Educator,

Thank you for joining us in the "I Am A Scientist" S.T.E.M. outreach program. Now that you have experienced your students being scientists and learning about science from professional research scientists, please help us evaluate our program by completing this survey.

1. Which of the the "I Am A Scientist" modules did your students participate in?

2. Please tell us what grade level you teach?

K 1 2 3 4 5 6 7 8 9 10 11 12

Strongly Agree Neither Agree nor Disagree Strongly Disagree

3. The "I Am A Scientist" program effectively supported Standard Based learning.

4. The "I Am A Scientist" program effectively supported your curriculum.

5. The "I Am A Scientist" program introduced your students to "pathways" in education and careers in science.

6. The "I Am A Scientist" program demonstrated to your students how science is relevant and affects them.

7. Students were actively engaged in scientific inquiry.

8. There was added value in having professional research scientists and university students work with your students to the overall experience.

9. There was added value in having the "I Am A Scientist" program come to you, as opposed to you scheduling a field trip to another location.

10. In your opinion, did your students interest and enthusiasm for science increase as a result of the "I Am A Scientist" program?

11. Would you recommend the The "I Am A Scientist" program to a colleague?

12. If applicable: There was added value in the material provided in the Teacher's Education Packet.
